Details

Your own Linux VPS (able to run JVMs from shell commands) installed from its latest open-source distribution and configured for Web (HTTP and HTTPS) Service Java Web Hosting on the VPS.

You can request? your Java Version (6,7,8,9) and you can make configuration updates to your VPS software as you need.

You have restricted access to the Linux OS (root functions can be available as req'd) and access to all JVM functions and commands but this is your own Java Server VPS, able to host all functions that such a VPS can, including dedicated JVM operations and multiple [IP addresses](#).

This is a "managed" VPS product and Network Presence SysAdmins are available for 24x7 by Web, Email, Skype or IM contact and by Mobile Phone 8x5 (Mon-Fri) for on-server systems administration work.

Easily upgraded, migrated or cloned to high specification VPS Plans as req'd, minimal Disk Cache, but more & SSD Disk is available too.

You have 24x7 Ticketed and 8am to 8pm Live SysAdmin Support included.

Please [contact us](#) with any queries you may have on this Appliance VPS.
