Details

A PAIR of Linux servers (Linux Distro selectable at order) with the MariaDB Galera MySQL Cluster software installed by Repositories, and configured for a MariaDB MySQL Cluster based on your requirements.

At least 2 x CPUs and 4GB of fast RAM and SSD RAID10 Disk arrays are provisioned for each of the 2 x VPS for your SQL Cluster, with more resources available as required or if high loads are expected. Each VPS is provisioned on physical separate VPS Hosting Platforms for further redundancy.

You have full access to the Linux OS and to all MariaDB Galera SQL and system functions and commands.

Though this is not a "managed" VPS product, Network Presence SysAdmins are available & included for 1 hour / month of phone, Skype or IM contact and on-server systems administration work.

Easily upgraded, migrated or cloned to high specification VPS Plans as req'd.

You have 24x7 Ticketed and 8am to 8pm Live SysAdmin Support included.

Please [contact us](#) with any queries you may have on this Appliance VPS.
